PROFESSIONAL SUMMARY

Full Stack Developer specialized in building corporate systems and web solutions. I integrate High-Code ecosystems (Angular, Vue, Laravel, Node, Java) and Low-Code platforms, choosing the best architectural fit for each scenario. Experienced in DevOps (Docker, CI/CD) and agile methodologies. To maximize productivity and technical quality, I use AI-assisted development workflows to optimize coding, refactoring, and continuous value delivery.

TECHNICAL SKILLS

- **Languages:** PHP, Java, TypeScript, JavaScript (ES6+), SQL
- **Frameworks & Platforms:** Laravel, Angular, Vue, Node, Spring Boot, React, React Native, OutSystems
- **Databases & Backend:** MySQL, PostgreSQL, SQL Server, REST APIs
- **Tools & DevOps:** Docker, CI/CD, Git, Figma, Cursor, Claude
- **Methodologies:** Scrum, Kanban, Agile Development

PROFESSIONAL EXPERIENCE

Full Stack Developer | Insti

Mar 2026 — Present

- **Development & Architecture:** Building and evolving software with Laravel on the back-end and Angular on the front-end. Refactoring initiatives, including consolidating the user permissions system.
- **Business Rules:** Implementing core platform features, such as the ticket collaborators module with advanced filtering logic based on client associations.
- **DevOps & AI (AI-Assisted Development):** Setting up Docker environments and CI/CD pipelines for continuous integration and delivery. Advanced use of AI (Cursor) and prompt engineering to accelerate microservices development and structure complex software logic.
- **Stack:** Laravel, Angular, SQL, Docker, CI/CD

Full Stack Developer | Self-employed

Jan 2026 – Present

- **Architecture:** Strategic stack definition for each project, considering performance, cost, and solution scalability.
- **Full Cycle (End-to-End):** Full software lifecycle management, from requirements engineering and client negotiation to deployment and maintenance.
- **Stack:** Vue.js, TypeScript, Tailwind CSS, Node.js, Docker

OutSystems Developer | Dal Pozzo

Apr 2025 – Mar 2026

- **Process Automation:** Implemented critical ERP module features in less than a year. Automated complex flows such as Purchase Orders and Invoice Entry, eliminating manual checks and reducing team operational time.
- **Integrations:** Developed REST APIs ensuring integrity and sync between third-party systems and the central ERP, including integrations with Zebra scanners and Sefaz systems. Optimization: Refactored legacy flows to improve scalability and performance of the legacy system.
- **Stack:** OutSystems, JavaScript, SQL, REST APIs

Data Analytics Intern | Millpar

Jan 2024 – Dec 2024

- **Business Intelligence:** Created strategic Power BI dashboards to monitor KPIs (Maintenance and Finance), supporting management decision-making.
- **Data Performance:** Optimized complex SQL queries, significantly reducing management report load times and improving analysis efficiency.
- **Stack:** SQL, Power BI, Excel

EDUCATION

- **Internet Systems Technology | UTFPR – Jan 2022 – Dec 2026**
Focus on Software Architecture, REST APIs, and Web & Mobile Development.

COURSES & CERTIFICATIONS

- **Rocketseat | 2025 – 2026**
 - **Software Engineering with PHP:** MVC architecture implementation, secure authentication systems (encryption/hash), middleware development, and route protection.
 - **Modern JavaScript:** Advanced DOM manipulation, asynchronous programming (Promises/Async-Await), and REST API consumption.
- **Code Academy - 3C+ (2025):**
 - Advanced Frontend Development (React and Vue.js).
- **Data Science Academy (2024):**
 - Power BI and SQL for Business Intelligence and Data Modeling.

LANGUAGES

- Portuguese: Native
- English: Intermediate (B2)
